What you'll leave with today

A clear view of whether CodSphere fits — and the smallest next step (or a clean no).

By the end of this conversation, you'll know three things.

01

Fit

Whether your way of taking and fulfilling custom orders matches what CodSphere is built for.

02

Opportunity

Where incomplete intake or lost status is costing time — on one real order path.

03

Next step

The smallest useful engagement — or an honest “not for you.”

This is not a feature dump. It's a working session on one of your orders.

THE PROBLEM

When every order is different, generic tools break.

Hard to buy

Customers need guidance on options, specs, files, and approvals. A standard cart assumes a fixed product.

Hard to run

Jobs bounce across email, spreadsheets, and tools. Teams learn something stalled when the customer asks.

The gap: selling and fulfilling live in different places.

Any business where most orders are different.

A strong fit when

- Most orders are unique to the customer
- Quotes, specs, or approvals matter
- Several people or systems touch each job
- Status lives in more than one place

Examples (not a limit list)

- Kitchens, cabinets, custom millwork
- Home renovations and custom builders
- Pharmacy / specialty fulfillment
- Print, sign, graphics
- Promo, apparel, fabrication, made-to-order

Same pattern: every order is different.

Start where you need. Expand as you grow.

01

Digital Storefront

Quote, configure, and capture specs/files up front.

02

Order Flow

One visible path — and see what stalls.

03

Custom Extensions

The missing estimator, portal, or fulfillment screen.

Not a standard cart. Not a forced full MIS/ERP replacement.

The smallest useful step first.

1. Diagnose

Map one real order.

CAD \$1,500–\$2,500

1–2 weeks

2. Digital Storefront

Intake for custom work.

CAD \$10k–\$25k

+ \$300–\$750/mo · 4–8 weeks

3. Order Flow Pilot

Timeline and status.

CAD \$7.5k–\$15k

+ \$1k–\$2k/mo · 3–6 weeks

4. Custom Extensions

After discovery only.

CAD \$20k+

Timeline varies

Fixed quote after discovery.

SELECTED WORK

Systems built around real operating complexity.

UAT

Great West Graphics / Proof Industries

Storefront + order-flow for custom graphics work.

Outcome measurement in progress.

LIVE

Voltvera

Commerce + ops for multi-party order coordination.

Outcome measurement in progress.
